

## **COVID-19 Update, March 23, 2020**

To protect rural communities and our staff, we are assessing distance learning options for our April - July trainings, which are *on hold* at this time. Our aim is to restructure these courses in a manner that will require a computer and a phone, but no internet.

In the meantime, please sign up for any training about which you are interested, including on-hold trainings. We will update you directly via email as we move forward.

At this time, we have no plans in place to alter August - September trainings, but will continue to assess the situation and update our website as the world, state, our communities and our families work through this event together.

In the meantime, we are still here. Our staff is dedicating extra time over the phone and email to work with you on your environmental program challenges. Through USDA RD funding, we are able to assist you on any question or project, whether large or small.

Phone: 907 277 2111 (leave a message and we will get back to you)
